Approx. Eng. "shoo"

Phoneme

k

voiceless velar plosive

Eng. "sky"

Plosive consonant

Phoneme

i

high front unrounded vowel

Eng. "caprice",

"seen"

Action

Constraint

The player you designate must, on their next turn, coin a word of a specified part of speech or in a specified semantic category — your choice.

Place this card in front of the player, who will discard it after their next turn.

Sound change

Phoneme merge

Discard a phoneme already in play, specifying another phoneme in play with which it merges.

(The two must match on at least one feature)

Meaning change

Extend meaning

Instead of coining a new word, take an existing word and give it a new meaning.

(This may or may not be related to its original meaning.)

Grammar change

Add inflection

Instead of coining a new word, think of an inflection (prefix, suffix, mutation, infix, ...) and show what it means and how it's used, with ~~two~~ or more previously coined words.

Subject

The drunken
juggler...

Predicate:

Tell ... to
be quiet.

Subject:

The happy
painter.....

Predicate:

...can juggle
seven swords.

Sound change

Eliminate contrast

Discard a
Phonemic contrast
card that is
currently in play,
eliminating this
contrast also in
existing words.

Phonemic contrast

Labialization

Place above consonant
array. While in play,
labialized versions of
all consonants are
available.

Predicate:

....can juggle
seven swords.

sni - eat (esp. sandwich, burger)

^{sno} snø - pl. n., men; male humans [sno]
