11:23:03 AM BoneHead777: I'd love to hold a talk about viossa some day
11:23:10 AM bur: and me and Arthur can talk relatively fluently to each other on Vahn
11:23:13 AM osswix: @david i shall, in that case.
11:23:16 AM BoneHead777: but more viossadjin need to be there
11:23:21 AM LCC6-Broadcaster: I've turned up the stage lights, lmk if that helped

11:23:29 AM Hobomancat: no!
11:23:35 AM Hobomancat: rip
11:23:40 AM KippLeKipp: the only conlang I'm rather interested in learning is Tardalli
tbh, and arthy is still making documentation for that 🍌
11:23:40 AM DavidJPeterson: LCCs are biennial, and no, not yet.
11:23:45 AM iuean: I say it loads but I need to get back into Viossa
11:23:46 AM Linguifex: A little

11:23:58 AM **salpfish**: the best way to get back into viossa is to get back into viossa
11:24:09 AM **bur**: get on the documentary, viossa is an amazing project (naturally evolving conlang for those who don't know)
11:24:14 AM **KippLeKipp**: I will be there! one day! I will cross mountains and seas to make phonemes in front of like minded conlangers!
11:24:45 AM **ieuan**: I'd love to see a talk on Vahn
11:24:50 AM **LCC6-Broadcaster**: also, stereo good now?
11:24:55 AM **fiftyfive**: Yep
11:24:57 AM **osswix**: Vahn'd do good.
11:25:03 AM **ieuan**: Stereo is good
11:25:05 AM **bur**: haha. maybe if me and Arthur can get in the same place
11:25:07 AM **LCC6-Broadcaster**: thanks
11:25:12 AM **Linguifex**: Stereo seems okay.
11:25:16 AM **bur**: or someone else learns it
11:25:16 AM **salpfish**: just for explains, viossa is a lang a group of /r/conlangs members developed entirely by speaking different natlangs and trying to make themselves understood pidgin-style
11:25:24 AM **osswix**: stupid me for not learning it. (vahn)
11:25:41 AM **fiftyfive**: I want to see some of jayelinda's conlangs too, they're pretty artistic
11:25:56 AM **bur**: haha, you're with me in the flesh oss, start learning!
11:25:57 AM **Manofzelego**: no buffer why 🤪
11:25:57 AM **ieuan**: I gotta go out in 15 minutes 🤪
11:26:09 AM **KippLeKipp**: What are the main ingredients to viossa stew again? Norwegian, Swiss German, German, Japanese and a hint of Albanian right?
11:26:17 AM **ieuan**: It's annoying cause I'd have liked to see the 2pm talk
11:26:21 AM **Hobomancat**: Many indo-european then
11:26:22 AM **salpfish**: not just a hint, it's quite a bit
11:26:25 AM **BoneHead777**: not a lot of standard german
11:26:27 AM **salpfish**: more russian as well
11:26:32 AM **Hobomancat**: *mainly
11:26:35 AM **KippLeKipp**: mhmm
11:26:36 AM **DavidJPeterson**: All the talks will eventually be on YouTube.
11:26:42 AM **KippLeKipp**: noice
11:26:42 AM **BoneHead777**: also finnish

12:05:59 PM Manofzelego: looks good now 🥰
12:06:13 PM fiftyfive: never mind. just my bad internet connection
12:06:15 PM osswix: it might just've been silent.
12:06:50 PM DavidJPeterson: Think we might be ready to get going again.
12:06:52 PM KippLeKipp: conlunch
12:06:57 PM KippLeKipp: with confood
12:06:59 PM KippLeKipp: at a contable

12:07:08 PM fiftyfive: in the conUK
12:07:09 PM kaleissin: Woohoooo!
12:07:28 PM GrayRichardson: Woot!
12:07:31 PM GrayRichardson: <http://quoteinvestigator.com/2012/10/02/like-kipling/>
12:07:34 PM LCC6-Broadcaster: so, we're going ahead, but we won't be able to insert the slides into the video stream
12:07:46 PM osswix: worlt waide interwebz
12:08:14 PM KippLeKipp: GrayRichardson : such a wonderful pun
12:08:31 PM fiftyfive: actually Kipp where is your name from?
12:08:53 PM osswix: it'd be dutch
12:08:58 PM osswix: chicken 🐔
12:09:03 PM KippLeKipp: mudkips, i'm one of those people who picked up a username early in life and it just stuck :v
12:09:09 PM fiftyfive: hahaha
12:09:10 PM KippLeKipp: eh I'm still a pokemon fan
12:09:10 PM GrayRichardson: As a language geek I practically think in puns
12:09:16 PM KippLeKipp: lel
12:10:04 PM KippLeKipp: *con-tea or con-coffee
12:10:16 PM fiftyfive: conKippLeKipp
12:10:22 PM KippLeKipp: ^_^
12:10:29 PM GrayRichardson: You could have a confab
12:10:30 PM osswix: conkipp stop con~con everyconthing.
12:10:37 PM osswix: 🥰
12:10:42 PM fiftyfive: ...conosswix
12:11:05 PM GrayRichardson: he is concerned
12:11:13 PM osswix: ah, it's gettin' dark.
12:11:22 PM KippLeKipp: say what, it's getting dark here
12:11:26 PM KippLeKipp: how is it getting dark there?
12:11:27 PM osswix: oh and lighter.
12:11:30 PM fiftyfive: condark?
12:11:30 PM KippLeKipp: you broke my mind
12:12:14 PM osswix: i conbroke your conmind*

12:12:18 PM KippLeKipp: I have some trigraphs in my romanization just to make people squirm :3

12:12:28 PM Manofzelego: hhhuh?

12:12:30 PM fiftyfive: like which?

12:12:40 PM KippLeKipp: <hhh> for [χ]

12:12:53 PM osswix: hhh kip hhhahhhahhha.

12:12:54 PM KippLeKipp: h is aspiration, <hh> is [x], <hhh> is [χ]

12:13:11 PM Hobomancat: what is <x>

12:13:15 PM Hobomancat: ?

12:13:34 PM fiftyfive: like a [h], but a little further back

12:13:46 PM fiftyfive: I think the flag is falling again

12:13:55 PM osswix: yep

12:14:05 PM Hobomancat: No I meant what does the grapheme represent

12:14:17 PM Hobomancat: I know what a velar fricative is

12:14:21 PM DavidJPeterson: If the language distinguishes [x] and [χ] phonemically and not [h], I'd do <kh> and <h>.

12:14:24 PM fiftyfive: oh right sorry

12:14:28 PM KippLeKipp: <x> is [θ]

12:14:48 PM fiftyfive: I always get [] and <> confused

12:14:48 PM KippLeKipp: again, it's mainly designed to make people squirm

12:14:50 PM Hobomancat: I was just wondering why you would use <hh> instead of <x>

12:14:59 PM Hobomancat: okay thanks for clarifyinh

12:15:05 PM Hobomancat: *clarifying

12:15:10 PM DavidJPeterson: But why a romanization system? Why not an orthography?

12:15:19 PM DavidJPeterson: The romanization system is just a tool.

12:15:24 PM KippLeKipp: good point

12:15:30 PM Hobomancat: I've never seen [θ] as <x>

12:16:09 PM fiftyfive: Um. Kipp. What is happening in /r/KippLeKipp?

12:16:12 PM KippLeKipp: it's because I don't really like the thorn and [tʰ] is found rather often

12:16:16 PM KippLeKipp: oh tht

12:16:24 PM KippLeKipp: that's just me being shenanigans

12:16:56 PM fiftyfive: right ok

12:16:57 PM Hobomancat: I was simply saying that i've never seen <x> to represent it

12:17:14 PM KippLeKipp: yeh, and I was telling you why I did it :3

12:17:15 PM Linguifex: Maybe use <th> for /T/ and <t·h> for /t_h/?

12:17:16 PM GrayRichardson: Woot!

12:17:24 PM Linguifex: Or perhaps the other way around?

12:17:39 PM Hobomancat: I persnaly like using thorn and eth

12:17:40 PM Manofzelego: simple <tth>

12:17:49 PM osswix: poor dutch

12:17:50 PM Linguifex: 🙄 No!

12:17:53 PM Hobomancat: I use them and eng in one of my langs

12:17:53 PM Manofzelego: lol
12:18:04 PM fiftyfive: <asugfdiasxbaisdas>
12:18:10 PM Manofzelego: ^ yes
12:18:14 PM osswix: i reckon germans are beatifull.
12:18:25 PM fiftyfive: people or language?
12:18:41 PM osswix: german languages*
12:18:43 PM Manofzelego: I think German is beautiful, I actually hate french 🥰
12:18:46 PM salpfish: the country itself
12:18:51 PM Linguifex: I think Arabic is beautiful
12:18:54 PM Hobomancat: Yeah
12:18:57 PM salpfish: most beautiful map ever
12:19:05 PM Hobomancat: The countryball
12:19:12 PM fiftyfive: I like Faroese but I can't say that or I'll be shunned so there
12:19:20 PM osswix: chinese is beatifull.
12:19:21 PM Hobomancat: Faroese is awesome
12:19:25 PM KippLeKipp: tagalog ftw
12:19:27 PM Hobomancat: Do you know tyr the band?
12:19:33 PM fiftyfive: I call bias, Kipp
12:19:39 PM KippLeKipp: lel
12:19:48 PM fiftyfive: never heard of them, Hobomancat
12:19:53 PM KippLeKipp: i note nobody is calling danish beautiful :v
12:20:17 PM fiftyfive: Hey, Danish is cool.
12:20:17 PM Hobomancat: Ther'ye a sweet faroese band. They sing in English, Faroese, and Norwegian
12:20:34 PM fiftyfive: I'll take a look. Thanks!
12:20:58 PM Manofzelego: I wish we could see the slides
12:20:59 PM Hobomancat: They're a folk metal band, and have songs about vikings and norse myths
12:21:18 PM osswix: can you not read the slides?
12:21:22 PM DavidJPeterson: Usually the LCS provides the slides for download.
12:21:31 PM fiftyfive: Too whitewashed, osswix
12:21:32 PM KippLeKipp: the slides look like a white scren to me
12:21:38 PM osswix: i could imgur a picture
12:21:38 PM Hobomancat: same
12:21:38 PM Manofzelego: where would this download be at?
12:22:40 PM osswix: <http://i.imgur.com/F4Q0klg.jpg>
12:22:57 PM fiftyfive: Thanks, osswix
12:22:57 PM Manofzelego: how?
12:23:09 PM Hobomancat: thanks
12:23:22 PM osswix: <http://i.imgur.com/65U8a86.jpg>
12:23:24 PM DavidJPeterson: They should be here, honestly: <http://conlang.org/language-creation-conference/lcc6/lcc6-speakers-and-presenters/>
12:23:31 PM DavidJPeterson: But they don't appear to be. That's unfortunate.
12:23:51 PM Manofzelego: aw, shame.
12:23:57 PM osswix: i will keep making pictures of usable sheets.

12:24:06 PM fiftyfive: you the real MVP

12:24:41 PM KippLeKipp: lel

12:25:23 PM DavidJPeterson: Where I'm sitting, I can't see the words on the slides, either.

12:25:32 PM osswix: i wont do the diagrams, they are unreadable from here either.

12:26:04 PM GrayRichardson: Woot! Celestial is mine

12:26:08 PM fiftyfive: It's actually really cool that we can talk to the actual David Peterson.

12:26:11 PM KippLeKipp: nice!

12:26:26 PM fiftyfive: The flag's coming off a lot, actually

12:26:41 PM KippLeKipp: fiftyfive : It might not be obvious but I am actually going all fangirl right now

12:26:47 PM Hobomancat: I should have contributed an audio clip

12:26:54 PM osswix: oh kip, ehk andrea.

12:27:00 PM KippLeKipp: ya

12:27:26 PM osswix: the flag is dying again~

12:27:51 PM salpfish: it's an omen

12:27:57 PM KippLeKipp: the only way to make the flag stay up there is shout at it sternly in klingon

12:28:05 PM fiftyfive: *sternly*

12:28:12 PM KippLeKipp: :3

12:28:15 PM DavidJPeterson: Languages that people claimed to recognize the most (they sounded most familiar): 1. English 2. French 3. Spanish 4. Mandarin Chinese 5. Esperanto.

12:28:17 PM Manofzelego: I read that as to stare sternly at it xD

12:28:23 PM Hobomancat: *sternly in klingon*

12:28:26 PM salpfish: i mean if you shout hard enough it'll hold the flag up regardless of language

12:28:37 PM KippLeKipp: but then everyone would go deaf

12:28:39 PM fiftyfive: you're right, actually

12:28:44 PM salpfish: shout voicelessly

12:28:58 PM DavidJPeterson: Languages that people claimed to recognize the least: 1. Hawaiian 2. Inupiatun 3. Dothraki 4. Xhosa 5. Sherpa.

12:29:04 PM fiftyfive: are voiceless vowels a thing?

12:29:10 PM salpfish: yups

12:29:18 PM Hobomancat: yes

12:29:20 PM Hobomancat: Japanes has them

12:29:23 PM salpfish: don't know of any languages that have them phonemically

12:29:26 PM fiftyfive: I feel like such a noob but thanks.

12:29:27 PM Hobomancat: *japanese

12:29:27 PM Manofzelego: wouldn't that be like silence?

12:29:43 PM osswix: dorthraki doesn't seem to be liked that much.

12:29:45 PM salpfish: but yeah japanese devoices /i w/ in certain contexts

12:29:57 PM salpfish: they're basically whispered

12:30:01 PM DavidJPeterson: lol People disliked Dothraki perhaps because they thought it was Arabic. O.O

12:30:09 PM [Linguifex](#): I like Arabic!

12:30:13 PM [Linguifex](#): 

12:30:19 PM [fiftyfive](#): Oh yeah, japanese has it in 'desu'

12:30:29 PM [DavidJPeterson](#): I too like Arabic.

12:30:30 PM [GrayRichardson](#): I like Arabic too!

12:30:34 PM [ossnix](#): i love arabic, it's just that people bind it with extreme muslims.

12:30:34 PM [KippLeKipp](#): desu desu desu desu [desu ad infinitum]

12:30:46 PM [Linguifex](#): I love /q/

12:30:47 PM [KippLeKipp](#): I like arabic's phonology

12:30:49 PM [ossnix](#): desudesu.

12:30:52 PM [Linguifex](#): And `ayn

12:30:55 PM [Linguifex](#): Agreed, KippLeKipp

12:30:58 PM [KippLeKipp](#): Linguifex : you have good taste

12:31:02 PM [fiftyfive](#): Agreed.

12:31:03 PM [KippLeKipp](#): in phonemes

12:31:05 PM [Linguifex](#): I studied it

12:31:05 PM [Hobomancat](#): Does anyone here know who laoshu is?

12:31:11 PM [fiftyfive](#): Nope

12:31:13 PM [Linguifex](#): in university

12:31:27 PM [Hobomancat](#): He's a youtuber who studies langauges

12:31:37 PM [salpfish](#): i've heard of him

12:31:51 PM [Hobomancat](#): He goes out on the streets and practices languages with random people he sees

12:32:01 PM [KippLeKipp](#): cool

12:32:22 PM [Hobomancat](#): He's fluent in Mandarin and Cantonese, and speaks really good japanese and korean

12:32:56 PM [fiftyfive](#): actually, come to think of it, japanese has voiceless u in a lot of words that end with 'su'. specifically verbs.

12:34:02 PM [fiftyfive](#): oh no the flag is held up by one thing now

12:34:14 PM [salpfish](#): the verbs end up getting the voicelessness because it only happens on syllables without pitch accent, and declensions usually aren't accented

12:34:20 PM [ossnix](#): byebye flag

12:34:26 PM [fiftyfive](#): he ded

12:34:28 PM [salpfish](#): it can still happen within roots as well

12:34:34 PM [Hobomancat](#): apperently chmanchee has contrastive voiceless and voiced vowels

12:34:40 PM [Hobomancat](#): *comanchee

12:34:43 PM [fiftyfive](#): Ah. I did not know that. Thanks salpfish

12:34:51 PM [salpfish](#): e.g. in "kusa" [kũsa]

12:35:02 PM [salpfish](#): lazy voiceless symbol

12:35:17 PM [salpfish](#): should be a turned m as well

12:35:18 PM [Hobomancat](#): I read that i and u between voiceless consonants in japanese get unvoiced

12:35:24 PM [KippLeKipp](#): someone should just ask David to shout at the flag and threaten it with extreme athnithar if it didn't stay on that wall 

12:35:33 PM **fiftyfive**: *stern klingon
12:35:35 PM **fiftyfive**: or german
12:35:37 PM **salpfish**: not in all places, hobo
12:35:40 PM **fiftyfive**: works either way
12:35:45 PM **DavidJPeterson**: Flags and tape never, ever mix.
12:35:47 PM **DavidJPeterson**: Need pins.
12:35:49 PM **salpfish**: pitch accented syllables don't get devoiced
12:35:56 PM **salpfish**: and it's not all voiceless consonants
12:36:17 PM **Hobomancat**: Thats just what I read on stackexchange though
12:36:22 PM **fiftyfive**: flags gone
12:36:26 PM **Hobomancat**: Are you fluent in Japanese Salpfish?
12:36:45 PM **salpfish**: somewhat
12:36:52 PM **salpfish**: b2 i'd say
12:37:04 PM **Hobomancat**: Did you learn it by yourself or in school?
12:37:09 PM **salpfish**: self
12:37:17 PM **salpfish**: i took spanish in school
12:37:23 PM **DavidJPeterson**: We're now ready for questions.
12:37:29 PM **DavidJPeterson**: If you have a question, just let me know.
12:37:37 PM **fiftyfive**: will do
12:37:41 PM **Hobomancat**: I took spanish and now I'm taking Chinese
12:37:44 PM **Hobomancat**: mandarin
12:38:37 PM **Hobomancat**: lol
12:38:52 PM **salpfish**: i took spanish up till ap, and then i only had 1 year of high school left so i didn't want to start a new one, but i'll definitely take another or two in college
12:38:56 PM **osswix**: no questions from here?
12:39:06 PM **salpfish**: seems so
12:39:20 PM **Hobomancat**: I want to take a native american langauge in college if possible
12:39:26 PM **Hobomancat**: *possible
12:39:46 PM **fiftyfive**: DavidJPeterson : "Has the same study been conducted somewhere else and, if so, was the outcome any different?"
12:41:37 PM **DavidJPeterson**: Asked.
12:42:11 PM **fiftyfive**: Thanks heaps!
12:42:34 PM **Manofzelego**: Question: Was there any other studies that influenced you to conduct you study?
12:42:48 PM **Manofzelego**: *your study
12:43:02 PM **osswix**: should i ask ,david?
12:43:10 PM **sheesania**: DavidJPeterson: What got you interested in studying conlangs?
Linguifex is now known as PogostickMan (12:43:30 PM)
12:43:45 PM **DavidJPeterson**: Asked both.
12:43:58 PM **Manofzelego**: yay thanks 🤪
12:44:02 PM **PogostickMan**: I have a question: Was there any correlation between language typology and naturalness rating? DavidJPeterson
12:44:19 PM **DavidJPeterson**: Got it.

12:44:21 PM PogostickMan: (Apologies if this was addressed; my stream had hiccups)

12:44:31 PM PogostickMan: Thank you!

12:46:13 PM Hobomancat: No

12:46:35 PM PogostickMan: And of course my stream hiccups when she answers my question 🤖

12:46:37 PM PogostickMan: Thank you, Hobomancat

12:46:53 PM fiftyfive: Basically, she didn't know.

12:46:58 PM PogostickMan: OK, thank you!

12:47:09 PM Manofzelego: Can this study be found in a paper published somewhere?

12:47:22 PM fiftyfive: You could also go back and watch again, I think, PogostickMan

12:47:43 PM PogostickMan: OK, I'll try that

12:48:11 PM PogostickMan: No, still hiccuped

12:48:17 PM PogostickMan: It, like, jumps.

12:48:33 PM PogostickMan: Will these talks be uploaded to YouTube separately later?

12:48:33 PM Hobomancat: I was saying no to her asking if all of our languages are typologically similar

12:48:33 PM DavidJPeterson: Did you try reducing the quality of the video PogostickMan?

12:48:39 PM PogostickMan: I did

12:48:41 PM PogostickMan: I'm at 144p

12:48:44 PM fiftyfive: Yeah they will be uploaded

12:48:50 PM PogostickMan: OK, I can wait until then.

osswix left the room (quit: Read error: Connection reset by peer). (12:49:01 PM)

12:49:10 PM PogostickMan: Thanks for getting my question asked!

osswix [~androirc@82-69-86-217.dsl.in-addr.zen.co.uk] entered the room. (12:49:17 PM)

12:49:21 PM PogostickMan: And thank you all for helping me with the answer.

12:49:54 PM fiftyfive: np

12:51:03 PM Manofzelego: Cool, I'll try to remember to check that out

12:52:23 PM osswix: "ah, eh, I ignored them", genius

12:52:40 PM fiftyfive: Was that DavidJPeterson?

12:52:56 PM DavidJPeterson: Yeah, that was me.

12:53:15 PM DavidJPeterson: I've been asked to remind everyone: We will have to switch to a second YouTube stream after lunch. That link is: <https://www.youtube.com/watch?v=Z-MSoK99FVU>

12:53:31 PM GrayRichardson: Thanks!

12:54:15 PM osswix: david, is there something to keep books open, my notebook tends to close itself.

12:54:41 PM DavidJPeterson: No, but I think the idea, osswix, is for people to actually go up, pick the artifacts up, look at them, etc.

12:54:49 PM DavidJPeterson: Not necessarily to display for people in the audience to see.

12:54:52 PM DavidJPeterson: I think, anyway.

12:54:58 PM osswix: alright.

12:55:11 PM fiftyfive: I have been watching this stream for 2 hrs now.

12:55:22 PM DavidJPeterson: Breaking for lunch!
12:55:24 PM PogostickMan: Thank you for the heads-up!
12:55:26 PM LCC6-Broadcaster: OK, we're shutting the stream down for lunch
12:55:26 PM fiftyfive: Going to have to go soon.
12:55:31 PM DavidJPeterson: REMEMBER: New stream link is <https://www.youtube.com/watch?v=Z-MSoK99FVU>
12:55:34 PM PogostickMan: How long is unch?
12:55:36 PM LCC6-Broadcaster: David's up next, in an hour, on <https://www.youtube.com/watch?v=Z-MSoK99FVU>
12:55:37 PM PogostickMan: *lunch
cedh left the room (quit: Quit: cedh). (12:55:38 PM)

12:55:40 PM LCC6-Broadcaster: lunch is one hour
12:55:42 PM DavidJPeterson: Talk to you later!

2:12:19 PM LCC6-IRC-mic_sai: GrayRichardson: it's not a great webcam 🐸
2:12:32 PM Manofzelego: webcams are usally pretty restrictive
2:12:58 PM GrayRichardson: No worries, just thought it was worth a shot to ask.
2:13:48 PM LCC6-IRC-mic_sai: GrayRichardson: it's fair. Wish we could, but we didn't bring good enough equipment this time

2:59:53 PM Manofzelego: so is the video actually frozen?
3:00:03 PM LCC6-Broadcaster: only in broadcast
3:00:05 PM DavidJPeterson: Sorry I went dark there for a bit. conlang.org appears to be back.
3:00:24 PM fredbayer: So the audio choppiness isn't on my end?
3:00:31 PM fredbayer: (I have terrible wireless speakers)
3:00:41 PM LCC6-Broadcaster: no, that's in broadcast
3:00:42 PM LCC6-Broadcaster: 🤪
3:00:43 PM Manofzelego: no I have that too now

3:02:49 PM fredbayer: Back now.
3:03:21 PM LCC6-Broadcaster: how's the sync?
3:03:47 PM Manofzelego: not horrible

3:04:00 PM LCC6-Broadcaster: better than I thought
3:04:10 PM LCC6-Broadcaster: video and audio are on totally different circuits
3:04:16 PM Manofzelego: like a second or 2?
3:04:29 PM LCC6-Broadcaster: video is pretty laggy getting to the broadcast computer

3:49:14 PM fredbayer: Question: Why do you think Romance is so much more popular for Indo-European a posteriori languages, compared to things like Germanic or Celtic?

3:49:45 PM Gwaur: I'm certain it's partly because latin is so well attested

4:09:11 PM DavidJPeterson: LCC6-Broadcaster: We've done that in the past.
4:09:14 PM GrayRichardson: no, just went back and was looking at the old slides.
4:09:29 PM DavidJPeterson: LCC6-Broadcaster: So people could see the slides on their own while presenters are presenting.
4:09:35 PM GrayRichardson: That is, once I realized that they were up.
4:09:42 PM LCC6-Broadcaster: DavidJPeterson: Yeah, but I figure it's nice to not spoil it. Can put it up simultaneous though
4:10:01 PM LCC6-Broadcaster: could discuss during break
4:10:18 PM osswix: there we go, thats more fusional.
4:10:27 PM LCC6-Broadcaster: will need to ask Britton about his, since it's got two big videos embedded
4:10:39 PM DavidJPeterson: Upload them now but just have the link go live right as the presenter presents. LCC6-Broadcaster
4:10:47 PM LCC6-Broadcaster: DavidJPeterson: Already did 🤪

4:11:03 PM LCC6-Broadcaster: for the ones that I have in gdrive at least
4:11:15 PM LCC6-Broadcaster: some aren't, since I killed everything nonessential on the presenting laptop
4:11:23 PM LCC6-Broadcaster: but will grab on usb during break
4:11:53 PM DavidJPeterson: Yeah, agglutinative thus far.
4:12:08 PM GrayRichardson: So, the difference between agglutinative and fusional is just that in fusional there's more than one category/concept encoded in the affixes?
4:12:28 PM DavidJPeterson: Yes.
4:12:38 PM Gwaur: fusional fuses more meanings in single morphemes
4:12:47 PM DavidJPeterson: *single affixes
4:12:50 PM DavidJPeterson: 🤪
4:13:03 PM GrayRichardson: I have faith in him.
4:13:04 PM Gwaur: ocey
4:13:06 PM Zhalio: He said the m-word! o_0
4:13:09 PM GrayRichardson: I am sure he will fuse something yet.

4:13:33 PM **Gwaur**: I'm sorry I don't know much about a lot of things yet 🐸

4:13:43 PM **DavidJPeterson**: The plurals can be analyzed as fusional.

4:13:44 PM **ossnix**: i am not even sure if my lang is fusional or agglutinative.

4:13:56 PM **DavidJPeterson**: Noun plurals.

4:14:05 PM **Zhalio**: Don't worry Gwaur, many professional linguists use the word morpheme. 🐸

4:14:17 PM **GrayRichardson**: Don't sweat the lingo. It's not really important whether it's one or the other.

4:14:48 PM **ossnix**: lets consider mine "something"

kaleissin left the room (quit: Quit: Bye). (4:14:57 PM)

4:14:58 PM **DavidJPeterson**: This is interesting. It's basically the opposite of what I'd expect.

4:15:22 PM **Zhalio**: At least opposite to Latin logic

4:15:34 PM **DavidJPeterson**: I.e. if you told me dynamic and stative predicates differ with respect to what case they assign their objects, I'd say statives would take dative, dynamic accusative.

4:15:40 PM **LCC6-Broadcaster**: Zhalio: have you seen DavidJPeterson's talk "down with morphemes"? 🐸

4:16:00 PM **BoneHead777**: what's wrong with morphemes?

4:16:11 PM **GrayRichardson**: I'm a heretic. I am pro-morpheme.

4:16:24 PM **LCC6-Broadcaster**: 🐸

4:16:41 PM **DavidJPeterson**: Questions?

4:16:42 PM **Zhalio**: I like that idiom

4:19:43 PM **fredbayer**: Need to get some errands done now. Be back later! Great conference so far 🐸

4:20:21 PM **IJzeren_Jan**: Both work fine, the IRC and the chatbox on Youtube.

4:20:55 PM **pne**: Never heard of a chatbox on YouTube

4:21:06 PM **IJzeren_Jan**: Me neither, it just popped up.

4:21:08 PM **ossnix**: the flag is still hanging~ ish

4:21:08 PM **LCC6-Broadcaster**: go to the live stream

4:21:13 PM **DavidJPeterson**: I hadn't either, actually, but I've been using it all day. Works!

4:21:29 PM **GrayRichardson**: How much have you fleshed out the prior versions of the language? How many versions of the language are fully or partially fleshed out? Have

you created other languages for your world and is there language change do to contact and borrowing?

4:21:39 PM LCC6-Broadcaster: it's a special mode of comments for live vs nonlive video

4:21:46 PM pne: Ah ok

4:22:09 PM IJzeren_Jan: So once it's not live anymore, the comments are gone?

4:22:20 PM LCC6-Broadcaster: not 100% sure

4:22:26 PM Zhalio: I ran into some Java security trouble with the first few attempts. I'm now on <http://webchat.freenode.net/>.

4:22:28 PM LCC6-Broadcaster: I think it switches to normal yt comment tyle

4:22:37 PM LCC6-Broadcaster: conlang.org/chat.php has an irc client

4:23:15 PM LCC6-Broadcaster: IJzeren_Jan might change over time?

4:23:20 PM LCC6-Broadcaster: caching or the like

4:23:26 PM LCC6-Broadcaster: *shrugs*

4:23:38 PM IJzeren_Jan: No idea, just tried to open it. Comments gone.

4:23:44 PM LCC6-Broadcaster: huh

4:23:59 PM LCC6-Broadcaster: and hopefully the flag will be stable now 

4:24:33 PM IJzeren_Jan: Funny that the flag has acquired such broad use, BTW!

4:24:55 PM LCC6-Broadcaster: m?

4:25:33 PM DavidJPeterson: Break now.  Back in 35 minutes.

5:28:19 PM ni291187: I like breathiness harmony 🤪
5:29:05 PM GrayRichardson: Ah, apparently: tetration (or hyper-4) is the next hyper operator after exponentiation, and is defined as iterated exponentiation. The word was coined by Reuben Louis Goodstein, from tetra- (four) and iteration. Tetration is used for the notation of very large numbers.

6:34:45 PM GrayRichardson: ONE should probably not have the square root of pi as a phoneme.

12:32:55 PM IJzeren_Jan: I've actually always argued that the vocative is not a real case.

12:33:06 PM fiftyfive: Why not?

12:33:08 PM Zhalio: Yeah, nice touch

12:33:12 PM BoneHead777: it is kind of a weird one

12:33:12 PM DavidJPeterson: I've thought that about the genitive, too, honestly.

12:33:40 PM osswix: Genitive not being a case?

12:33:53 PM Zhalio: German has genitive complements to verbs

12:34:01 PM DavidJPeterson: Yeah. It doesn't do the same thing as other cases often.

12:34:14 PM BoneHead777: well, genitive I'd say it depends on the etymology. would you consider the various adposition-replacing cases no cases as well?

12:34:14 PM pne: Not so much in common speech though

12:34:27 PM IJzeren_Jan: In the case of the genitive I'm not convinced. In Slavic it absolutely behaves like a case though.

12:34:38 PM IJzeren_Jan: But the vocative is a different story.

12:35:23 PM BoneHead777: I guess the main difference is that the genitive is part of an NP, while most other cases are part of a whole sentence

12:35:28 PM BoneHead777: if you know what I mean

12:35:28 PM IJzeren_Jan: BTW a funny tendency in Polish is that sometimes the vocative is used instead of the nominative. 🤪

12:36:05 PM osswix: I often make the error with possessive pronouns in German, I tend to make them genitive instead of not having them agree with the noun.

BoneHead777 left the room ("Quit"). (12:38:42 PM)

BoneHead777 [~androirc@82-69-86-217.dsl.in-addr.zen.co.uk] entered the room. (12:39:01 PM)

12:39:16 PM DavidJPeterson: BoneHead777 Yes, that was what I meant by that. But, of course, some languages will use the genitive in non-genitive ways, and, e.g., certain verbs will require a genitive argument for some reason.

12:39:59 PM eugenelcc6: Of course it had to be Dagestan 🤪

12:40:05 PM DavidJPeterson: lol

12:41:08 PM Zhalio: Isn't the vocative a core case in Castithano?

12:41:51 PM DavidJPeterson: Depends how you classify the terminations on nouns.

12:41:56 PM DavidJPeterson: If you call them cases, yes.

12:43:45 PM osswix: Dogget.

12:44:03 PM IJzeren_Jan: Reminds of the X-Files.

12:44:14 PM DavidJPeterson: Dogget sounds like a mild insult. I like it.

12:44:15 PM Gwaur: hotdogget

12:44:26 PM Fenh1: that example "I give a bone, the dog gets it" looks a bit like Eñdehl to me

12:44:38 PM Zhalio: I was just thinking of my Oro Mpaá

12:44:49 PM Zhalio: Where you would say "I give bone goes_to dog"

12:44:54 PM DavidJPeterson: Or Sasxsek.

12:45:53 PM pne: Chinese does similar serial verb constructions, doesn't it?

12:46:49 PM osswix: Is the /ŋk/ from a genuine English accent?

12:46:56 PM Gwaur: conlankink

12:47:09 PM Tsela: It is... British English is weird 🤪

12:47:15 PM eugenelcc6: It is but a lot of it is his idiolect 🤪

12:49:57 PM DavidJPeterson: Thanks!

12:50:03 PM Zhalio: I wouldn't have parsed that "all he makes, he decorates..." correctly — I guess the syntax must be tricky

12:50:04 PM Fenhl: so a verb for every participant in the sentence like in Iljena, but not fused into a single word

12:50:23 PM pne: Fenhl very iljena-like

12:50:43 PM LCC6_Broadcaster: Fenhl, is Ẽndehl yours?

12:50:51 PM Fenhl: a collang

12:50:58 PM LCC6_Broadcaster: ah

12:51:03 PM Fenhl: it didn't get very far of course

12:51:45 PM osswix: collangs sometimes are funny, until you don't agree.

12:54:02 PM Zhalio: I think I'd be too opinionated to join in a collang.

12:54:16 PM fiftyfive: This is a very interesting talk; I should be taking notes

12:54:43 PM BoneHead777: you can rewatch it, can't you?

12:54:48 PM fiftyfive: Yeah

12:54:51 PM Tsela: Everything is recorded and will be published on our Youtube channel.

12:54:53 PM DavidJPeterson: Of course, it's being recorded, so you'll be able to watch it again later. 🤪

12:55:13 PM pne: What wiukd be usefuk is a transcript

12:55:22 PM pne: I can read a lot faster than I can listen

12:55:32 PM pne: And grep better in written sources 🤪

12:55:51 PM BoneHead777: for the very first talk, a side by side transcript would be awesome

12:56:07 PM DavidJPeterson: That's true.

12:56:11 PM pne: Which one was that agaian?

12:56:17 PM BoneHead777: I had a hard time following it

12:56:27 PM Tsela: The Itlani one 🤪

12:56:28 PM LCC6_Broadcaster: Alurhsa, living your language

12:56:30 PM BoneHead777: the one where one guy spoke in a conlang

12:56:32 PM LCC6_Broadcaster: er, Itlani.

12:56:33 PM Tsela: Jim and Tony

12:56:35 PM pne: Ah right

12:56:36 PM BoneHead777: and the other translated

12:56:43 PM BoneHead777: thanks, not good at names
12:56:51 PM pne: Yes, that would be awesome
12:57:06 PM fiftyfive: Agreed.
12:58:13 PM fiftyfive: DavidJPeterson, have you talked to Sam Blumire about LLADI? It will be a pretty useful resource.
12:59:25 PM DavidJPeterson: LLADI...? And no, don't know Sam Blumire. Who's that?
fiftyfive
12:59:45 PM BoneHead777: sam's a guy sitting here in the back
12:59:52 PM BoneHead777: mod of the subreddit
1:00:02 PM osswix: he's two chaira next to me, one next to bonehead.
1:00:05 PM fiftyfive: Bur_Sangjun on Reddit. osswix is next to him (I think)
1:00:12 PM osswix: chairs*
1:00:35 PM Gwaur: osswix: say hi to bonehead from me
1:00:38 PM DavidJPeterson: Oh, I guess I haven't met Sam yet. Didn't know the mod of /r/conlangs was here!
1:00:38 PM osswix: david look behind you, i will do the pointing.
1:00:41 PM BoneHead777: hi gwaur
1:00:47 PM Gwaur: hi sascha
1:00:54 PM DavidJPeterson: Okay, so now what is LLADI?
1:01:07 PM osswix: duolinguo, but open
1:01:12 PM fiftyfive: Here's an example of a course: <http://i.imgur.com/rFloSxK.png>
1:01:20 PM osswix: so people can make their own courses.
1:01:22 PM Gwaur: anyone can install lladi on their own website and make a course of their own lang
1:01:22 PM fiftyfive: (Language Learning Application Development Interface)
1:01:44 PM DavidJPeterson: That's cool! I didn't know about it. Can't one do that for Duolingo now, though?
1:02:19 PM BoneHead777: this is the lladi developer borrowing Saschas phone from from the back of the room
1:02:25 PM fiftyfive: Yes, but LLADI is specialized for conlangs
1:02:29 PM fiftyfive: oh hey Bur
1:02:37 PM DavidJPeterson: Oh, Questions from IRC?
1:03:01 PM BoneHead777: on duolingo, you cant make a course for any language
1:03:12 PM DavidJPeterson: I thought you could now. That's too bad.
1:03:28 PM BoneHead777: whereas LLADI allows anyone to make a language course
1:03:48 PM BoneHead777: you can apply to work on one of the courses they have available
1:03:54 PM fiftyfive: <http://giant.gfycat.com/OrnateAfraidAtlanticsharpnosepuffer.webm>
1:04:04 PM BoneHead777: but not really submit your own
1:04:12 PM DavidJPeterson: AH.
1:04:15 PM DavidJPeterson: *Ah.
1:04:24 PM BoneHead777: and if you do submit your own they have to approve it
1:04:35 PM fiftyfive: Similar to GitHub, almost
1:04:51 PM DavidJPeterson: That's too bad. They should just open it up. Will check out LLADI, though.

1:05:18 PM BoneHead777: and I suspect unless your name was David Peterson and your language called something like dothraki I suspect they would turn down conlangs

1:05:50 PM BoneHead777: Im at the LCC in a black coat with a navz backpack if you want to talk at some point

1:06:06 PM BoneHead777: *navz, damn qwertz keyboard

1:06:16 PM fiftyfive: *navy

1:06:17 PM BoneHead777: *navy

1:06:19 PM fiftyfive: you're welcome

1:06:20 PM osswix: klingon and esperant exluded* bur

1:07:46 PM IJzeren_Jan: Main hoon na!

1:08:05 PM BoneHead777: again, huge name langzages, not smaller communit ones that still have learner interest like Vahn and Tardalli

1:08:07 PM osswix: hai ironman.

1:08:42 PM IJzeren_Jan: Hai, hai.

1:08:48 PM fiftyfive: DavidJPeterson, how does iljena deal with abstract concepts like 'it' and 'they'? Are they also verbs?

1:08:59 PM osswix: you done dogwalked?

1:09:07 PM LCC6_Broadcaster: 1260, rather

1:09:13 PM Zhalio: He did have a 3C root for 3rd-person pronoun

1:09:16 PM IJzeren_Jan: Yes, I walk doggeted.

1:09:26 PM fiftyfive: Ah, right.

1:09:28 PM pne: There was a noun shape that meant "3sg"

1:09:45 PM fiftyfive: Seem to have missed that one

1:10:47 PM Zhalio: Zombies and ghosts, then

1:12:50 PM fiftyfive: Thanks!

1:12:53 PM kaleissin: *scrolls about* I seem to be the only one with my ircnick on my badge, hmm

1:13:06 PM DavidJPeterson: DavidJPeterson disagrees

1:13:11 PM Zhalio: There's fenhl as well

1:13:22 PM eugenelcc6: Is Casidhe here today? Her seSuntratā is also serial verby

1:13:37 PM IJzeren_Jan: You guys are present there?

1:13:47 PM DavidJPeterson: Yep!

1:13:51 PM kaleissin: yep

1:13:56 PM eugenelcc6: Me too

1:13:59 PM osswix: yo

1:14:03 PM Fenhl: me too

1:14:11 PM IJzeren_Jan: Me envies youet.

1:14:17 PM LCC6_Broadcaster: yup

1:14:20 PM fiftyfive: I'm on the other side of the world

1:14:24 PM DavidJPeterson: Doggets all of us!

BoneHead777 is now known as SaschaMBAer (1:14:33 PM)

1:14:41 PM SaschaMBAer: I disagree too, now

1:14:45 PM DavidJPeterson: lol

1:15:10 PM SaschaMBAer: except I lost my badge

1:15:33 PM osswix: i have my real name on it.

1:15:53 PM fiftyfive: Is your first name Willem, osswix? Sounds Dutch

1:16:04 PM IJzeren_Jan: You're Dutch?

1:16:38 PM osswix: not willem... how you that close though?

1:16:44 PM Fehnl: > real name

1:16:51 PM kaleissin: hence I can't tell what you look like, which might have been your devious plan all along I guess

1:16:55 PM osswix: ik ben nederlands jan.

1:17:06 PM osswix: It should be Wilco Jacobs.

kmein [~androirc@82-69-86-217.dsl.in-addr.zen.co.uk] entered the room. (1:17:11 PM)

1:17:13 PM IJzeren_Jan: Waar woon je?

1:17:23 PM osswix: iets boven denbosch.

1:17:36 PM IJzeren_Jan: Toch niet in Oss, toevallig? 🐸

1:18:05 PM osswix: nee, over de maas, t' heet ammerzoden.

1:18:26 PM fiftyfive: Your picture on the live feed has your badge. Ik spreek geen Nederlands. het spijt mij

1:18:27 PM IJzeren_Jan: De heerlijkheid Ammerzoden, klopt dat? Vlak bij Zaltbommel?

1:18:47 PM osswix: jep, zit op het cambium (das in zaltbommel)

1:18:54 PM IJzeren_Jan: Dat is waar mijn familie oorspronkelijk vandaan komt.

1:19:08 PM DavidJPeterson: Sai is now starting his talk. Got a couple links for you.

1:19:10 PM fiftyfive: hehe. oorspronkelijk

1:19:13 PM IJzeren_Jan: Nu woon ik in IJmuiden (Jajoujście, Eggmouth).

1:19:16 PM DavidJPeterson: Here's his slides: http://conlang.org/cms/wp-content/uploads/LCC6_Sai.pdf

1:19:17 PM SaschaMBaer: okay, this 'll be intresting

1:19:33 PM DavidJPeterson: And this is the legal memo he's going to be referring to: <http://conlang.org/cms/wp-content/uploads/Dentons-Conlang-Memo-public-version.pdf>

1:19:56 PM osswix: ijzere, woont er nog familie in anmerooi? anders mag je es langskomen.

1:20:03 PM kmein: Why 'not a lawyer *yet*'?

1:20:11 PM fiftyfive: send help, osswix has gone mad

1:20:15 PM IJzeren_Jan: Nee, al tweehonderd jaar niet meer, vrees ik.

1:20:20 PM DavidJPeterson: He's thinking about going to law school. May be applying soon.

1:21:12 PM DavidJPeterson: Big difference between US and everyone else's law: The US doesn't recognize moral rights. Most of the rest of the world does.

1:23:04 PM Zhalio: What does that mean?

1:23:15 PM DavidJPeterson: What Sai said or what I did?

1:23:34 PM DavidJPeterson: These are moral rights for background info: http://en.wikipedia.org/wiki/Moral_rights

1:24:31 PM eugenelcc6: What I interpret that to mean is, I. The

1:24:35 PM eugenelcc6: Argh

1:24:50 PM Zhalio: Thanks

1:25:13 PM eugenelcc6: In the US if you sell your work you can't prevent people from dismembering your work or erasing attribution to you?

1:25:33 PM DavidJPeterson: No, you can, if you own it.

1:25:33 PM LCC6_Broadcaster: eugenelcc6: is this a question for the end of the talk?

1:25:40 PM LCC6_Broadcaster: (oh)

1:25:55 PM DavidJPeterson: The issue comes up when you do things as work for hire, where everything you do is owned by whoever owns the contract.

1:26:03 PM DavidJPeterson: You can't do that in places that recognize moral rights.

1:26:12 PM DavidJPeterson: The creator always has those rights.

1:26:24 PM DavidJPeterson: Not in the US. In the US corporations can own everything.

1:26:40 PM DavidJPeterson: (Caveat: That's my understanding of it. May not be 100% accurate.)

1:27:03 PM eugenelcc6: That explains why my (American) employer doesn't let me put my name on stuff... Maybe

1:27:09 PM fiftyfive: In the USA there's company healthcare, too. What's the point of all this corporatization? It confuses me

1:27:09 PM eugenelcc6: Thanks!

1:28:02 PM osswix: 55, i guess super capitalism.

1:28:23 PM fiftyfive: Huh. Weird.

1:30:54 PM fiftyfive: It would be good if we had a prefabricated 'conlang' licence (like how they have the MIT licence), one that specifically deals with fair use, derivatives etc.

1:31:22 PM Fenhl: ^

1:32:01 PM Tsela: That only works if conlangs fall under copyright. Otherwise your licence has absolutely no value.

1:32:47 PM IJzeren_Jan: What's OED?

1:32:58 PM LCC6_Broadcaster: Oxford English Dictionary

1:33:03 PM IJzeren_Jan: Thanx

1:33:11 PM fiftyfive: Wouldn't they automatically have copyright (Berne Convention)?

1:33:46 PM Tsela: No, because they are not a fixed work. That's what Sai is discussing right now.

1:33:56 PM DavidJPeterson: Right.

1:34:11 PM fiftyfive: Ah, I see.

1:34:15 PM LCC6_Broadcaster: Each fixed form would; but if I wrote my own grammar of your conlang I'd have copyright on mine

1:34:38 PM LCC6_Broadcaster: (to attempt to summarise)

1:34:49 PM fiftyfive: Yep. Thanks!\

1:34:54 PM miekko: it is kind of interesting that you can hold the patents of an algorithm but not copyright on a language

1:35:14 PM eugenelcc6: Algorithms are fixed form though

1:35:23 PM miekko: eugenelcc6: well yes and no

1:35:34 PM miekko: eugenelcc6: i'd say language could be compared to a data structure that the algorithm uses

1:35:42 PM LCC6_Broadcaster: yeah, they distinguish _algorithms_ from _code

1:35:50 PM miekko: and the algorithm is the grammar that turns a thought into that data structure

1:35:53 PM Tsela: We'll come to patents later

1:36:36 PM miekko: if you were using a patented form of peculiar database, you'd be violating the patents of the algorithms that generate and handle that database

1:36:51 PM miekko: and in a sense I'd say you're doing that when you are using the language
osswix left the room (quit: Read error: Connection reset by peer). (1:36:53 PM)
1:37:14 PM LCC6_Broadcaster: ah, Sai's come to this just now
1:37:21 PM LCC6_Broadcaster: algorithms vs. "methods"
1:37:24 PM DavidJPeterson: miekko: Said just said you can't patent an algorithm. Do you have a counterexample?
1:37:43 PM DavidJPeterson: *Sai just said
1:38:43 PM miekko: US 5579430
1:38:48 PM miekko: US 5627938
1:38:53 PM miekko: US 5341457
1:38:59 PM miekko: US 4558302
1:39:24 PM miekko: US 4405829
1:39:47 PM miekko: US 6384822
1:39:57 PM DavidJPeterson: Thanks for those! FYI this chat transcript will eventually go up on the site somewhere, but I wanted to get the specific ones down so Sai could look at them later if he's interested.
1:39:59 PM miekko: so ... I don't know what the fuck he is on about
1:40:10 PM LCC6_Broadcaster: you should frame this as a question, miekko
osswix [~androirc@82-69-86-217.dsl.in-addr.zen.co.uk] entered the room. (1:40:19 PM)
1:40:22 PM fiftyfive: ^
1:40:23 PM miekko: ok, "what the fuck is he on about"
1:40:24 PM LCC6_Broadcaster: for the speaker
1:40:36 PM LCC6_Broadcaster: I don't remember the details but hairs are split about what a "method" is
1:40:46 PM miekko: clearly
1:41:13 PM LCC6_Broadcaster: like, arithmetic coding was patented. it's not an algorithm, as such; it's a class of algorithms? it's a specification of the pre- and post-conditions on a hypothetical algorithm?
1:42:10 PM Zhalio: Legalese depresses me.
1:43:13 PM miekko: I don't think there's a reasonable distinction between algorithm and class of algorithm
1:43:26 PM LCC6_Broadcaster: "sorting algorithm" vs. "quicksort"? no?
1:43:49 PM LCC6_Broadcaster: not that I'm saying that's what the law does, I don't really have a clue, but it's the sort of line one could draw
1:43:58 PM Tsela: lawyers disagree, and that's why the us have that mess
1:44:00 PM miekko: arithmetic coding is even worse then
1:44:04 PM miekko: because if you can patent that
1:44:16 PM miekko: you've really gone and patented a billion algorithms
1:44:32 PM miekko: but like
1:44:43 PM miekko: lots of 'algorithm classes' can be merged into 'an algorithm with parameters'
1:44:45 PM fiftyfive: miekko, if you want to ask you can
1:44:52 PM miekko: I don't think I want to
1:44:59 PM miekko: I just participate in an irc chatroom

1:45:08 PM LCC6_Broadcaster: fiftyfive, you could ask 🥰

1:45:20 PM fiftyfive: How should I phrase it?

1:45:56 PM DavidJPeterson: I got it.

1:45:59 PM LCC6_Broadcaster: ok

1:46:01 PM fiftyfive: Thanks/

1:46:05 PM fiftyfive: *.

1:46:28 PM IJzeren_Jan: Question: how do all these things work internationally. Suppose I'd publish a conlang named "Dothrako" full of elements from David's Dothraki - here in the Netherlands. What can HBO do against me in that case?

1:46:43 PM Zhalio: Dothraki-based auxlang?

1:46:46 PM DavidJPeterson: Good question.

1:47:14 PM osswix: dortrakkie* ijzere man.

1:47:22 PM IJzeren_Jan: Michael Everson! 🥰

1:48:46 PM Gwaur: ドズラ子

1:49:01 PM osswix: dozurako?

1:49:33 PM Zhalio: Dóþrækki

1:49:54 PM osswix: dorp trakkie ?

1:50:13 PM SaschaMBAer: Toslaki

1:50:20 PM kmein: Δοθράκει

1:50:28 PM Zhalio: Totschlagie?

1:50:45 PM Gwaur: miEkko

1:50:55 PM Zhalio: [mi.'ek.ko]?

1:50:59 PM kmein: ikarhtoD

1:51:10 PM IJzeren_Jan: 🥰

1:51:18 PM Gwaur: I'd go like ['miek.ko]

1:51:21 PM Zhalio: If it's Finnish, I guess it would have to be ['mi.ek.ko]?

1:51:37 PM Gwaur: ie is a diphthong

1:51:41 PM Zhalio: Ah

1:51:50 PM IJzeren_Jan: Доћраки.

1:51:56 PM osswix: i think the dutch spelling of how my friend pronounces it is best.

Dortrakkie

1:52:19 PM Gwaur: doaitrahkki

1:52:23 PM miekko: gwaur?

1:52:30 PM Zhalio: Dovothracium

1:52:30 PM miekko: I just came from Helsinki, btw

1:52:36 PM miekko: I hate driving in that city

1:52:53 PM Gwaur: the guy on the stream said "here's a question from IRC from a user named [mi.'ek.ko]"

1:53:00 PM fiftyfive: It looks nice, actually. I want to go oneday

1:53:01 PM pne: Dovothracium FTW

1:53:05 PM fiftyfive: *to Helsinki

1:53:06 PM miekko: urgh

1:53:21 PM fiftyfive: urgh?

1:53:24 PM osswix: gwaur, david asked it.

1:53:39 PM IJzeren_Jan: Dōtrākī

1:53:40 PM Gwaur: sorry, I don't know these people (yet?) 🧐

1:53:41 PM miekko: I am pretty sure my question was not all that well formed in the first place

1:54:08 PM miekko: first of all, I just was pointing at how there's a weird mismatch there between the notion of fixed form and so on

1:54:13 PM LCC6_Broadcaster: well, he said that algorithms are discussed in this regard in the Denton's memo a little, so you could look there, miekko

1:54:48 PM kmein: 달라키

1:55:24 PM osswix: 돌틀락킹.

1:55:26 PM SaschaMbaer: Дoθpакы

1:55:55 PM osswix: 뿔락키.

1:56:16 PM Gwaur: кафан ханацу осшикс

1:56:20 PM IJzeren_Jan: Haha, no offense taken. 🧐

1:56:25 PM Gwaur: оссвикс*

1:58:06 PM LCC6_Broadcaster: (ah, I was wrong in scope. https://en.wikipedia.org/wiki/Arithmetic_coding#US_patents)

1:58:13 PM IJzeren_Jan: One more question: what if I'd like to make a Dothraki-Dutch dictionary?

1:59:10 PM Gwaur: how'bout a dothraki-natlang translator

1:59:35 PM osswix: my friends 'd buy, i got like 20 hooked to got and dorthraki.

1:59:39 PM fiftyfive: "It depends"

2:00:44 PM eugenelcc6: Jan: That would be a new creative work so you're not in violation I'd presume? Esp since languages themselves can't be copyrighted

2:01:48 PM osswix: cool

2:01:49 PM DavidJPeterson: Jan: I see your question. I'll wait for some people here to ask questions first, though (didn't want to hog the space!).

2:01:58 PM LCC6_Broadcaster: I wonder if a Dothraki-Dutch dictionary might count as a translation of the Dothraki-English dictionary. there must be case law regarding translations

2:02:08 PM osswix: david, i could ask for ja .

2:02:12 PM DavidJPeterson: Cool!

2:08:34 PM osswix: there we go, ijzere man.

2:08:54 PM Zhalio: Somebody would be stuffed in the back of an unmarked fulapuk and doggeted.

2:08:56 PM IJzeren_Jan: Haha.

2:10:10 PM IJzeren_Jan: Pan-Slavicize the world in Ithkuil? Well now, that's interesting!

2:10:14 PM kmein: lol

2:10:25 PM osswix: so many different laws...

2:11:07 PM IJzeren_Jan: Wheee!

osswix left the room (quit: Read error: Connection reset by peer). (2:11:08 PM)

2:11:43 PM DavidJPeterson: Haha, now I have the computer! -Erin

2:12:00 PM fiftyfive: what's happening?

2:12:00 PM IJzeren_Jan: Erin, you there? Hi!

2:12:21 PM DavidJPeterson: Hi all, we're about to get an LCS history lesson!

osswix [~androirc@82-69-86-217.dsl.in-addr.zen.co.uk] entered the room. (2:12:51 PM)

2:13:10 PM IJzeren_Jan: What's happening on stage there?

2:13:16 PM Zhalio: No sound?

2:13:28 PM osswix: no technician now...

2:13:37 PM DavidJPeterson: Sai has called down the original members of the LCS/LCC
I believe

2:14:11 PM DavidJPeterson: He's giving us a brief history of the evolution of the first
LCC

2:14:36 PM osswix: who's got david's laptop?

2:14:45 PM DavidJPeterson: I do! -Erin

2:14:46 PM IJzeren_Jan: His wife Erin.

2:15:02 PM IJzeren_Jan: Who's on stage?

2:15:08 PM DavidJPeterson: Now I have the power!

2:15:54 PM DavidJPeterson: Sylvia, Alex, Tony, John, Sai, Arnt, Henrik, David, Kristoff,

2:16:04 PM DavidJPeterson: and someone who isn't wearing a name tag

2:16:15 PM eugenelcc6: And. That's his name 

2:16:35 PM DavidJPeterson: Thanks!

2:16:40 PM PogostickMan: When's the relay results supposed to be on?

2:16:43 PM PogostickMan: After the break?

2:16:49 PM fiftyfive: yep

2:16:52 PM fiftyfive: I think

2:16:57 PM eugenelcc6: "... David, Christophe and And" - I love putting And last in a list
because you get to say "and And"

2:17:08 PM DavidJPeterson: So Sai is giving the history of the founding/incorporation of
the LCS

2:17:28 PM DavidJPeterson: A rund of applause for Sylvia!

2:17:33 PM DavidJPeterson: er, round!

2:17:51 PM DavidJPeterson: As the backbone/engine of the LCS!

2:17:53 PM fiftyfive: *claps*

2:18:04 PM osswix: *clapped.*

2:18:09 PM Zhalio: Tolo dan nan galad!

2:18:12 PM DavidJPeterson: And yes the relay results will be after the break!

2:19:03 PM DavidJPeterson: WE're going to try to get you guys some sound here =)

2:19:29 PM IJzeren_Jan: Sound is fine, but I'd like to see what's going on there.

2:19:38 PM fiftyfive: I have sound, too.

2:19:50 PM DavidJPeterson: oh, is there no video?

2:19:59 PM Zhalio: History lesson

2:20:08 PM fiftyfive: Nope. Just the slide

2:20:30 PM DavidJPeterson: Ok, we'll see what we can do!

2:21:09 PM fiftyfive: * claps

2:21:55 PM IJzeren_Jan: Ah, finally we've image!

2:21:58 PM DavidJPeterson: Better? Can you see the stage?

2:22:10 PM fiftyfive: Yep!

2:22:11 PM DavidJPeterson: Hooray!

2:22:20 PM Gwaur: "conlanging is not a traditional job!111"

2:24:05 PM eugenelcc6: It was also a very professionally done application process (Dothraki) for having been done by just Sai alone

2:25:10 PM DavidJPeterson: Yeah, it turned out to have been a lot of work for the participants, but coming from nothing it was a much better system than it could have been...

2:25:45 PM DavidJPeterson: And it was great to make sure that it was truly a blind judging process!

2:27:20 PM IJzeren_Jan: Yeah, that was brilliant.

2:28:00 PM osswix: i feel really new to conlanging ^^

2:28:09 PM fiftyfive: so do I haha

2:28:19 PM SaschaMBaer: I think many here do

2:28:32 PM DavidJPeterson: Well that's good! Any field needs new blood to keep the oldsters from growing stale!

2:28:53 PM DavidJPeterson: And then you become oldsters in your turn and need new blood to keep you on your toes!

2:29:05 PM SaschaMBaer: that david ain't david!

2:29:05 PM Zhalio: And I feel like I let it slide at the most inopportune moment back then...

2:29:38 PM DavidJPeterson: No I've hijacked his feed -Erin ←—his wife

2:29:58 PM SaschaMBaer: I know 🧐 (can see you from back here)

2:30:20 PM DavidJPeterson: Bwhahahaha

2:30:29 PM IJzeren_Jan: Hope to meet you in person next time, Erin.\

2:30:49 PM fiftyfive: Question: how does the LCS get funding?

2:31:06 PM DavidJPeterson: Absolutely, if it's somewhere I'm willing to travel to! I've only missed one LCC so far!

2:31:19 PM DavidJPeterson: Dues from it's memebers and donations

2:31:25 PM DavidJPeterson: Er, members

2:31:36 PM IJzeren_Jan: Yeah, and that's was the only one where I was present. 🧐

2:31:37 PM fiftyfive: Ah, right. Thanks!

2:31:50 PM fiftyfive: Great talk.

2:31:56 PM DavidJPeterson: Unfortunately I couldn't afford that airfare!

2:32:16 PM IJzeren_Jan: But now you have a rich husband! 🧐

2:32:26 PM DavidJPeterson: Ha

2:32:42 PM DavidJPeterson: He was rich, then we decided to buy a house and now we're poor again!

2:32:53 PM DavidJPeterson: Or at least he was "rich" =P

2:33:15 PM IJzeren_Jan: Well, sell the Rolls then and buy a simple Mercedes instead. 🧐

2:33:24 PM DavidJPeterson: No the difference was we found Norwegian airlines has ridiculously cheap airfare to Britain!

2:33:55 PM DavidJPeterson: Lol, my car is a 98 Honda, I don't think language creation pays what you think it pays!
2:34:19 PM IJzeren_Jan: Tell me about it! All I've ever made with conlanging is perhaps € 500.
2:34:54 PM IJzeren_Jan: Not even that, now that I think of it.
2:34:55 PM DavidJPeterson: Hey making any money on Conlanging puts you way ahead of the herd!

2:34:59 PM Gwaur: all I've made with conlanging is friends 🥰
2:35:08 PM DavidJPeterson: Ahhhhhhh
2:35:16 PM DavidJPeterson: The greatest riches of all!
2:35:27 PM IJzeren_Jan: Amen to that!
2:35:29 PM Gwaur: they don't pay for rent though : pp
2:36:01 PM DavidJPeterson: Ok, gonna run and get a drink during the break! David will be back with your regularly scheduled programming!

3:00:12 PM **ieaun**: Or Viossa
3:00:26 PM **Zhalio**: Does anyone know how much a cab is from here to Gatwick?
3:00:28 PM **ieaun**: A group translation could be interesting
3:00:43 PM **ieaun**: -Zhalio, I could check now
3:00:45 PM **DavidJPeterson**: Zhalio: Not sure, but the train goes straight to the airport.
Very convenient!

3:01:14 PM **Zhalio**: Yeah, but it's a timing issue
3:01:16 PM **pne**: And it's just a few stops on the train and it stops right at the airport
3:01:21 PM **Zhalio**: My flight's at 18:15
3:01:40 PM **Zhalio**: Ticket says the gate closes at 17:45
3:01:44 PM **pne**: Trains at 1701 and 1744 IIRC
3:01:58 PM **IJzeren_Jan**: Ich glaube wir haben noch immer die Lebensstrom, oder?
3:02:01 PM **Zhalio**: How long are the queues?
3:02:21 PM **Zhalio**: Was heißt das, Jan?
3:02:37 PM **DavidJPeterson**: No queues, that I know of.
3:02:38 PM **Gwaur**: ieaun: we'll definitely see viossa on SOME relay after next
christmas
3:02:43 PM **LCC6_Broadcaster**: DavidJPeterson: apparent slides trouble. alert Sai
3:02:56 PM **IJzeren_Jan**: Ich sollte geschieben haben: der Lebensstrom natürlich.
3:03:09 PM **IJzeren_Jan**: Lebensstrom = Live stream 🐸
3:03:12 PM **Zhalio**: Gah
3:03:26 PM **Zhalio**: "Die Live-Übertragung"

3:03:52 PM **IJzeren_Jan**: Calques are my lust and my life!
3:03:57 PM **LCC6_Broadcaster**: cool.
3:04:04 PM **ieaun**: Horsham > Gatwick, 5:01 > 5:22, £5.60
3:04:21 PM **IJzeren_Jan**: BTW Zhalio, until you mentioned Oro Mpaa I had no idea it
was you. I'd rather have expected you as "Cinga" or something.
3:04:23 PM **LCC6_Broadcaster**: for those following along at home: [http://conlang.org/

3:05:07 PM **Zhalio**: Awesome vowels
3:05:25 PM **Zhalio**: Jan: Zhalio is my Dothraki name. 🐸
daiki left the room (quit: Ping timeout: 245 seconds). (3:05:39 PM)
3:06:12 PM **IJzeren_Jan**: Oh dear, that makes me curious what would be my Dothraki
name!
3:06:25 PM **IJzeren_Jan**: "Khal Nayak", I'd suppose! 🐸
3:07:02 PM **DavidJPeterson**: This is whom I followed. Can't wait to see what his text
was supposed to mean.
3:08:22 PM **IJzeren_Jan**: Wow, quite something, that relay text!
3:08:35 PM **IJzeren_Jan**: That's just begging for creation myths! 🐸

3:09:25 PM Zhalio: No literal translation of things that don't make sense! I thought we had a rule for that.

3:10:32 PM ieahun: I think someone trying to decipher a Vahn relay could get interesting...

3:10:45 PM DavidJPeterson: Dave's up next so his computer is mine again! -Erin

3:11:19 PM IJzeren_Jan: My first relay text I translated from was in Ebisedian. After that, you're up to anything! 

3:12:30 PM DavidJPeterson: And now you get to hear Dave speak in his "Khal of Kahls" voice

pne left the room (quit: Ping timeout: 246 seconds). (3:13:04 PM)

3:13:15 PM ieahun: Not quite a Drogo is he... 

3:14:10 PM DavidJPeterson: Dave likes to "make his own sentences"

3:14:18 PM Gwaur: two geminates in one word? wow that's so hard I mean wow like

3:14:36 PM DavidJPeterson: qemmemmo

3:14:49 PM DavidJPeterson: ugh, and this is why I don't speak Dothraki

3:15:59 PM DavidJPeterson: lol

3:16:10 PM DavidJPeterson: I'm back.

3:16:25 PM IJzeren_Jan: Oh dear, hadn't noticed it had already started.

Zhalio left the room (quit: Ping timeout: 246 seconds). (3:17:58 PM)

3:27:33 PM ieahun: "African" is pretty broad

3:27:48 PM DavidJPeterson: Leggbo?

3:27:55 PM IJzeren_Jan: Hey Christophe (Tsela), did you get my sound files?

3:29:35 PM fiftyfive: Going to go, everyone, hope the rest is good!

3:30:17 PM eugenelcc6: Jan what is the Interslavic endonym?

3:30:24 PM IJzeren_Jan: Medžuslovjanski.

3:30:41 PM eugenelcc6: Ah I should have known 

3:30:49 PM Zhalio: Do you have an MP3...?

3:31:01 PM eugenelcc6: Load it here!

3:31:07 PM IJzeren_Jan: I'm afraid I don't know how to make MP3.

3:31:15 PM IJzeren_Jan: Not on this computer at least.

3:31:22 PM IJzeren_Jan: Would it help if I upload it to my website?

3:31:24 PM DavidJPeterson: Type "convert windows media file to mp3" into Google.

3:31:37 PM DavidJPeterson: But I think Sai is taking care of it. 🐸

3:31:48 PM DavidJPeterson: We got it.

3:32:24 PM Zhalio: Hello Jan!

3:32:30 PM IJzeren_Jan: Hi Christian!

3:32:41 PM IJzeren_Jan: Does it work? I'm busy converting.

3:32:45 PM LCC6_Broadcaster: it works!

3:32:47 PM DavidJPeterson: Yes, it's fine!

3:32:49 PM Zhalio: Yeah, you just greeted us

3:32:52 PM SaschaMbaer: we're hearing it right nos

3:32:52 PM IJzeren_Jan: Ah, great!

3:32:52 PM eugenelcc6: It worked! We're listening to you

3:32:52 PM DavidJPeterson: We're going right now.

3:32:56 PM SaschaMbaer: * now

3:34:22 PM DavidJPeterson: Nice reading IJzeren_Jan!

3:34:25 PM Zhalio: It is soundink wery Russian!

3:34:41 PM IJzeren_Jan: Thank you! 🐸

3:35:06 PM LCC6_Broadcaster: Jan, any comments?

PogostickMan left the room (quit: Read error: Connection reset by peer). (3:35:06 PM)

3:35:07 PM DavidJPeterson: Any comment IJzeren_Jan?

3:35:11 PM LCC6_Broadcaster: for Christophe to read aloud?

3:35:45 PM IJzeren_Jan: Oh dear, I was having a problem with the "plain" and the "palce markers"

3:35:47 PM Zhalio: We're waiting...

3:36:05 PM IJzeren_Jan: Didn't quite make sense to me. But I hope I managed to turn it into something remotely possible.

3:36:18 PM Zhalio: The plain is my fault. 🐸

3:36:18 PM jonah: My mother-tongue is Russian and I understood almost everything with no effort.

3:36:31 PM Zhalio: Nice!

3:36:38 PM IJzeren_Jan: That's how I understood the Old Greedian text anyway.

3:36:55 PM IJzeren_Jan: Loved doing it!

3:38:07 PM Zhalio: I like the juxtaposition of Ree and Rεε

3:38:23 PM Zhalio: Vowel harmony?

3:38:44 PM Fenhl: I believe ree means language

3:38:54 PM DavidJPeterson: I wouldn't think it does have vowel harmony.

3:39:19 PM Fenhl: and rεε kɪbyaa is the region? iirc

3:39:25 PM DavidJPeterson: If there is vowel harmony, I can't identify the perameters.

3:40:03 PM Zhalio: Yeah, I might just have gotten the impression from the presence of dotless-i

3:40:20 PM Fenhl: oh no it's a demonym http://akana.conlang.org/wiki/Ree_Rεε_Kɪbyaa

3:40:37 PM eugenelcc6: From insanity to RPG journeys

3:41:10 PM IJzeren_Jan: Compliment for Jan Strasser! I like what you did with the landmarks!

3:43:06 PM Zhalio: "Many inanimate nouns (and a few animate ones as well) form the plural through ablaut of the stressed vowel (abbreviated as 'V'). The most commonly observed vowel alternations are short /i ÷ e/ shifting to ı u a and long /i: ε:/ shifting to ee ıı: "

3:43:35 PM Zhalio: Ok, so there's no harmony but some systematic correspondence.

3:44:57 PM DavidJPeterson: Cool.

3:45:06 PM IJzeren_Jan: OMG, Ithkuil is really a tongue-breaker!

3:46:13 PM Zhalio: Heskhatruc'èlxhürt!

3:46:22 PM Zhalio: I have to use that

3:48:16 PM Gwaur: anything in ithkuil is a tongue-twister

3:48:58 PM IJzeren_Jan: Indeed, remarkable transformation.

3:49:18 PM ieau: Back

3:50:51 PM IJzeren_Jan: *claps*

3:54:34 PM Zhalio: I think there's a gyâ-zym-byn speaker in the audience.

3:54:42 PM LCC6_Broadcaster: who?

3:54:44 PM Zhalio: Philipp Newton?

3:54:53 PM LCC6_Broadcaster: pne: is this true?

3:54:56 PM LCC6_Broadcaster: oh, he's off

3:56:21 PM DavidJPeterson: I didn't think anyone but Jim Henry spoke gzb.

3:57:41 PM LCC6_Broadcaster: it was the subject of one of the learners' list experiments

3:57:43 PM Zhalio: Isn't that him with the tablet in the 3rd row?

3:57:48 PM LCC6_Broadcaster: I don't know how far eeryone got

3:58:22 PM DavidJPeterson: Man, Ring one got more and more positive and this Ring is a descent into darkness! -Erin ← stole the computer again!

3:59:01 PM Zhalio: There you go: Titles are evil.

3:59:59 PM DavidJPeterson: I dunno a never dying title doesn't seem any more evil than a zombie title!

4:00:14 PM DavidJPeterson: Vampire Title vs Zombie Title!

4:01:21 PM DavidJPeterson: The only safe title is one which was never born!

4:01:36 PM Zhalio: Apparently it's keeping the hope out

4:02:17 PM DavidJPeterson: Titles=antidote to optimism

4:02:56 PM Zhalio: There's hope after all!

4:03:11 PM DavidJPeterson: Title merges with Body=Frankenstein Title?

4:03:45 PM IJzeren_Jan: This is also one law of relays: sooner or later, there are always DEMONS!

4:03:50 PM Zhalio: Wolf in sheep's clothing

4:04:18 PM DavidJPeterson: I'm back.

4:04:36 PM IJzeren_Jan: Any dangerous or unfriendly person sooner or later always becomes a demon.

4:05:00 PM DavidJPeterson: Wow. I just stepped out for a bit. Came back to this. lol

4:07:06 PM IJzeren_Jan: It's getting more and more psychedelic!

4:08:26 PM Zhalio: At least they're starting to distance themselves from the demons.

4:08:42 PM DavidJPeterson: Man, if I had seen this earlier, I would've opened my book with this quote: "Don't try to secretly remember feeling the power that belongs to you, that stops me from feeling."

4:08:57 PM ieaun: What have I come back to

4:09:28 PM Zhalio: Jeez, make coherent sentences, people

4:09:38 PM Zhalio: Them's the rules

4:09:43 PM LCC6_Broadcaster: amen!

4:09:51 PM IJzeren_Jan: 🤪

4:10:35 PM ieaun: This is getting a little scary

4:10:42 PM IJzeren_Jan: Yeah, rule no. 1: even it doesn't make sense to you, turn it into something that does make sense!

4:11:36 PM ieaun: How long have you guys been into conlanging?

4:11:50 PM DavidJPeterson: 15 years.

4:12:08 PM eugenelcc6: Same

4:12:13 PM LCC6_Broadcaster: similar for me

4:12:19 PM ieaun: A fair bit longer than my 2 and a half then 🤪

4:12:49 PM IJzeren_Jan: At least 20 years. Depends a bit what you call conlanging though.

4:13:03 PM IJzeren_Jan: Not counting sketches I made during my teens.

4:13:07 PM Zhalio: My Obrenje webpage started in 2001, apparently.

4:13:16 PM ieaun: I've not evenn been alive for 20 years, wow

4:13:41 PM ieaun: If you don't count teen sketches then about 8 months 🤪

4:13:45 PM miekko: 16-17 years, I guess, is how long I've been doing it

4:13:59 PM kaleissin: First version of Taruven went online in '96 or '97 iirc

4:14:37 PM Zhalio: Well, I think I'd better get going

4:14:51 PM Zhalio: Have to pick up by bag and buy a ticket and stuff

4:14:52 PM ieaun: Bye!

4:14:56 PM IJzeren_Jan: Bon voyage, Christian!

4:15:00 PM Zhalio: It's been fun — see you all!

4:15:06 PM IJzeren_Jan: Bye!

4:15:09 PM kaleissin: seeya!

4:15:23 PM Zhalio: Oud dindrade bein!

4:15:24 PM IJzeren_Jan: *claps*

Zhalio left the room (quit: Quit: Page closed). (4:15:39 PM)

4:15:44 PM IJzeren_Jan: Ščestlivoj puťi!

4:18:25 PM DavidJPeterson: Going to sign off here. Nice chatting to everyone all weekend!

4:18:33 PM LCC6_Broadcaster: it's been fun!

4:18:39 PM LCC6_Broadcaster: signing off the yt stream now

4:18:51 PM DavidJPeterson: Bye bye! ~ 🤪
